TOP 100 Conflict Mineral Influence Leaders
Assent Compliance is proud to announce the first ever Conflict Mineral Influence Leaders - Top 100 List. The list was independently researched by Lucas Taylor, University of Notre Dame MBA / LDT Consulting on behalf of Assent Compliance. The following factors were taken into account when building this list.

Categories:

- NGO’s
- Government Officials
- Corporations
- Trade Organizations
- Next Frontier
- Service Providers
- Legal/Audit
- Media

While there could have been an influencer list for each of the categories this list examined the top influencers holistically. There were multiple variables taken into account when ranking. These included the following:

- Organization Size
- Participation in Due Process of Passing Legislation
- Social Media Followers – LinkedIn / Twitter
- Klout Score
- Trade Show and Industry Group Participation - Online/Offline
- Media Citations / Participation

The scoring algorithm was developed and then participants were added to the list and adjusted based on individual research by LDT consulting. This list will be revised annually to reflect the changing landscape of the regulation.

Congratulations to every person, and their respective organizations that made the list. You will notice that spot 100 is vacant. Was there anyone missed? If so please share the list on LinkedIn and mention in your share who you would have added or what you think should have been done differently.

Please join the dialog in creating the Top 100 list for 2016.

Be sure to follow Assent on LinkedIn and Twitter and join the conversation.

About the Author
Lucas Taylor, MBA

Lucas has tailored his career to focus on providing strategic insights across industries ranging from office supplies to semiconductors and has done work for clients ranging from Fortune 500s to Wall St and Start-ups. His innate curiosity and devotion to sound decision making helps clients in their professional endeavors and research projects.
Carolyn Duran - Intel
Carolyn Duran is the conflict minerals program manager and global director of supply chain at Intel Corporation. She initiated Intel’s push toward a 100% conflict free supply chain. Carolyn was featured in Mashable, discussing Intel’s push towards becoming conflict mineral free and the importance of cutting conflict minerals out of your supply chain. Carolyn has truly been a difference maker in the conflict mineral compliance industry.

Benedict Cohen - Boeing
Boeing is the head of the National Association of Manufacturers conflict minerals task force and Ben Cohen is their Chief counsel of Litigation and Washington D.C. Operations. He has spoken publicly about the complexities of implementing Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010. His thoughtful insights about conflict mineral compliance have shed light on issues impeding U.S. Electronics Manufacturers.

Jeffrey Williams - Apple
Jeffery is the senior Vice President of Operations, as well as Supplier Sustainability and Supply Chain at Apple. With Apple being a prime consumer of minerals, Mr. Williams has been a key stakeholder as he is responsible for end-to-end supply chain management. He is dedicated to ensuring that all of Apple's products are of the highest quality and conflict mineral free. Apple made headlines last month when they filed their conflict minerals report months ahead of the deadline.

Jennifer Prisco - TE Connectivity
Jennifer is the Senior Counsel and is in charge of Global Supply Chain at TE Connectivity. She has given lectures at BSR conferences and spoken about the need to collaborate with external stakeholders on solutions for how to address conflict minerals issues throughout the supply chain. She outlined several partners—including the U.S. Department of State and the SEC, along with various other groups and industry associations—that TE Connectivity is working with to trace the origin of all minerals used in their products.

Tara Holeman - CFSI Audit Program Director
Tara is the audit director for the CFSI and currently works at the EICC. She has more than 15 years of experience dealing with supply chain social compliance and human rights issues. Tara is an advocate for business social responsibility and compliance. She specializes in corporate responsibility, supply chains and labour issues.
TOP 15

Mary Schapiro - SEC
Mary is the commissioner of the SEC who enforces the conflict minerals legislation. She has been actively involved with the Dodd-Frank Wall Street Reform and Consumer Protection Act since the very beginning. Her knowledge of conflict minerals compliance and Section 1502 are rivaled by few, making her a thought leader in this space. Schapiro was listed number 65 on Forbes 100 Most Powerful Women in 2012 and is one of the world’s most powerful regulators.

Bob Jenkins - Thermo Fisher
Bob is the Senior Director of Procurement Excellence & Global Sourcing at Thermo Fisher, a multinational, biotechnology product development company with over 9,000 suppliers. Bob has in-depth knowledge about this topic and is a conflict minerals thought leader in the space. He has over 20 years of experience working in operations and the manufacturing industry.

Michael Littenberg - SRZ
Michael Littenberg is a key figure on the conference circuit and the leading legal mind in Conflict Minerals compliance. His advice has been used by hundreds of companies when designing a compliant Conflict Minerals program. Michael’s law firm was one of the first to develop a resource center to help public and private companies comply with the Conflict Minerals Rule.

Charles Riepenhoff Jr. - KPMG
KPMG has the largest presence in the Conflict Minerals space out of the Big Four audit firms, including PwC, Deloitte and EY. Charles is a managing director at KPMG and is highly influential on many programs. Charles has published multiple articles sharing his knowledge of conflict mineral compliance.

Dave Reynolds - Kemet
Dave has been KEMETs representative to the EICC extractives team to develop CFS audit protocol for the Conflict Free Smelter Program. He has been involved in the development of raw material sources within Central Africa, particularly the Democratic Republic of Congo.
John Prendergast - Enough Project
John Prendergast is a human rights activist and best-selling author who has worked for peace in Africa for thirty years. He is the Founding Director of the Enough Project, an initiative to end genocide and crimes against humanity affiliated with the Center for American Progress. John has worked for the Clinton White House, the State Department, two members of Congress, the National Intelligence Council, UNICEF, Human Rights Watch, the International Crisis Group, and the U.S. Institute of Peace.

Patrick Leahy - Senator
Senator Leahy and other co-sponsors of the Dodd-Frank Section 1502 sent a letter to the SEC in support of the initiative and objecting the proposed language of used in the act which allowed companies to “furnish” instead of “file” their required disclosures. Senator Leahy and his supporters helped to shape the Dodd-Frank act into what it is today.

Tim Mohin - AMD

Jonathan Hughes - Assent Compliance
Jonathan is the Head of the Conflict Minerals program for the only solution provider cited in the Final Rules for the Conflict Mineral Legislation. Assent Compliance is the most universally adopted Conflict Minerals software platform and currently the leading member of the Conflict Minerals Stakeholder Forum. Over 100 000 firms use Assent to exchange conflict mineral data.

Bill Skeates - Samsung
Bill is the Head of Sustainability Europe for Samsung Electronics, one of the world’s largest electronics manufacturers. Samsung is dedicated to raising awareness throughout its entire supply chain and preventing the use of conflict minerals.
16. Amanda Davidson - Freescale Semiconductor
Amanda is Manager of Ethics and EICC at Freescale Semiconductor. As project manager of the Corporate Conflict Mineral Team, she developed policy and processes to comply with the US Dodd-Frank Conflict Mineral Legislation and manage a cross functional team of directors within Finance, Global Procurement and Legal. She has been a OECD Conflict Mineral pilot program participant, a guest speaker at the multiple conferences and webinars and is quoted in Ethisphere magazine for Conflict Minerals.

17. John Mitchell - IPC
John is the President and CEO of IPC, an association connecting electronics industries globally with their suppliers and their customers. John is extremely knowledgeable about conflict minerals and what it takes to be compliant.

18. Kathleen Shaver - Cisco/EICC
In her work as the Director of Sustainability and Risk at Cisco, Kathleen has worked to drive sustainability performance and thought leadership directly into day-to-day business operations. This mind-set provides Kathleen’s team with the tools they need to continuously drive sustainability improvements addressing industry issues such as tracing conflict minerals.

Brian is the senior global sustainability manager at Netapp. He pioneered the development, strategy and program for Cisco’s Conflict Minerals compliance process. Brian has been involved with almost every issue involved with sustainability, from labour rights to environmental compliance. His experience includes building a program from scratch to evaluate and manage the social and environmental risks for Cisco’s global supply base.

20. Kelly Katynski - Ford Motor Company
In her role as Sustainability Purchasing Manager, Kelly is leading the Conflict Mineral compliance effort for Ford Motor Company. She leads a cross-functional team responsible for data extraction, systems development, OECD due diligence compliance, process mapping and documentation. Additionally, Kelly participates on various teams with the Automotive Industry Action Group (AIAG) including the Conflict Mineral Work Group, the IPCMP Governance Committee, and the Legislative sub team.

21. Robert Wilkins - Judge
“Judge Wilkins was the e-judge that upheld the new rule that forced manufacturers to disclose whether their products contained “conflict minerals” from the DRC. In his upholding of SEC’s conflict minerals rule in 2013, Judge Wilkins wrote “Finding no problems with the SEC’s rulemaking and disagreeing that the conflict minerals disclosure scheme transgresses the First Amendment, the court concludes that plaintiffs’ claims lack merit.””

22. Nick Kristof - NY Times
Nicholas D. Kristof, a columnist for The Times since 2001, is a two-time Pulitzer Prize winner who writes op-ed columns that appear twice a week. His piece Death by Gadget about conflict mineral policy and trade is extremely popular and he has involved himself with human rights issues for a number of years.

23. Carlos Alvarado - Baker Hughes
Carlos is the Conflict Minerals Program Coordinator at Baker Hughes and designed a program to comply with Conflict Minerals disclosure required by Dodd-Frank Act §1502 and managed day-to-day activities and is a thought leader in the space.

24. Tim Woodrich - John Deere
Tim is the Senior Compliance Engineer and Project Manager for the Conflict Minerals Program at John Deere, a leader in designing and manufacturing integrated power electronic inverters. John Deere is one of a small pool of companies that have taken great steps towards creating a plan of action for identifying smelters in their supply chain and becoming conflict mineral compliant.

25. Michael Chen - Halliburton
Michael is the Supply Chain Business Process Analyst Lead at Halliburton. Halliburton is one of the world’s largest providers of products and services to the energy industry. Michael has over 17 years of experience with global sourcing and supply chain analysis.

26. Chris Bayer - Tulane University
Chris is a consultant for Tulane University, a guest lecturer and an international development practitioner with twelve years of relevant experience and an in-depth understanding of conflict mineral compliance and social supply chain responsibility.

27. John Plyer - Blackberry
John is responsible for developing and managing the Social Responsibility program for the BlackBerry global supply chain. He has over 20 years of experience in the supply chain and corporate responsibility industry.

28. Scott Gordon - Thermo Fisher
Scott is the conflict mineral program manager at Thermo Fisher and is responsible for the entire project portfolio with a supplier base of over 10,000 companies. His deep understanding of conflict minerals compliance have allowed him to become a thought leader and train others on the steps it takes to become conflict mineral compliant. He has participated in webinars and has been published sharing his knowledge of the subject. Recently, Scott was part of a webinar hosted by Assent sharing his tips for becoming conflict mineral compliant.

29. Jayne Donegan - Textron
Jayne has over 25 years of experience in the compliance space. She is currently a Senior Associate of General Counsel at Textron and is responsible for SEC reporting and compliance, as well as corporate finance transactions and corporate governance matters.
